Patient Attachments sections categorize the documents that are attached to a patient.

Examples of these documents include letters, insurance cards or paperwork, lab results from other institutions, financial documents, consent forms and other types of forms.

These categories or sections are shown on AxiUm as follows:

Each section or category is also divided into sub-categories or TABS. On the image above, the **Intake Section/Category** is selected (left side). More sub-categories/TABS are displayed on the right side of the screen.
